removed.txt

Good Morning Bob,

This timeframe will work. The samplers will need to be able to sample from a well at up to 3 locations.

**Work on the Reservation**

Please provide a sampling plan documents prior to the event. We need to make sure the analysis includes all COC. In the past, EPA sends well results to the owners of sampled private wells. I understand you were planning on doing this. Please provide a copy of sent results for our records/tracking.

Hi Kristen,

Please see the message below. I told them I would check to see how much lead time you need to help coordinate sampling dates with the residents. We can push it into August if the end of July is too soon.

Thank you,

Bob

For the purposes of scheduling, do you know what kind of time frame will be required for acquiring access to properties for sampling? CWE is currently available during the last week of July.

Thank you,

--Matt
